

April 22, 2021

Remember, at this time of year we ship only hardened off material unless otherwise requested.

AND, our Shipping Schedule during this time of year (April thru mid-June) is quite different, and needs more planning on your part and on ours, than the rest of the year.

Priority #1) If you haven't done so, get on the Trucking Schedule. During this hectic time of year the Schedule fills up fast. The earlier you contact us, the better chance of getting your preferred day of delivery.

Also, it is important for us to know if your delivery date is for an Open House or other special event. Please let us know this when you call to schedule.

Priority #2) Get your order to us **a least 48 hours** before your scheduled delivery day. The office needs time to prepare your order for picking and to clear up any questions that may arise.

Pick up Orders

For some of you, picking up your order at the nursery is an option. If so, please get your orders to us **at least 48 hours** in advance of your preferred pick up day.

Can I make a last minute addition to my order?

Before July 1, we will only accept additions and changes to delivered orders up until NOON before your scheduled delivery day. Any additions after that time will be accepted as a new order and scheduled for your next delivery or pick-up.

We've come to realize that last minute additions, even for just a flat or two, were creating mistakes and delays during our busiest time of the year. We feel this new policy will result in fewer mistakes and delays, and more accurate timing of deliveries to our customers.
