

A few signs that spring is on its way.....

- * Seeds and cuttings for the 2025 season are arriving daily.
- * 2025 price lists, new variety and retailer information has been updated on the website.
- * More website updates will be happening daily.
- * The 2025 catalog is being prepared to go to the printer.

While the plants are sleeping, inside, we are busy!

A full cutting house is a thing of beauty.
